

1. PRODUCT AND MANUFACTURER (see section 16) IDENTIFICATION

Product Name: Stimate® Nasal Spray

Distributor: CSL Behring L.L.C.
Address: 1020 First Avenue
 PO Box 61501
 King of Prussia, PA 19406-0901

Telephone Number: (610) 878-4000

Emergency Product Information: (800) 504-5434

Emergency Response: (800) 424-9300

This is a biological product with specific therapeutic activity. It is manufactured and offered for sale under registration and approval of the U.S. Food and Drug Administration. The U.S. OSHA does not require MSDSs for biological hazards. CSL Behring provides this information as a service to customers and others who might handle or otherwise come in contact with this product.

2. COMPOSITION / INFORMATION ON INGREDIENTS

<u>Common Name</u>	<u>CAS No.</u>	<u>Comments</u>
Desmopressin acetate (1.5 mg/ml)	62288-83-9	Active ingredient
Chlorobutanol (5.0 mg/ml)	57-15-8	Preservative
Sodium Chloride (9 mg/ml)	7647-14-5	Osmotic balance adjustment
Hydrochloric acid	7647-01-0	PH adjustment
Water for injection	7732-18-5	Volume adjustment

3. HAZARDS IDENTIFICATION

Potential Health Effects

This product contains, as an active ingredient, desmopressin acetate. It is a synthetic analogue of the natural human hormone arginine vasopressin. This is a biologically active pharmaceutical product with specific therapeutic effects. It is licensed by the FDA for certain medical indications and is only to be administered as prescribed by a licensed physician.

No adverse health effects anticipated with normal handling and use in appropriate medical setting. Medical implications of therapeutic use are described in product package insert or may be found in the Physicians' Desk Reference.

Emergency Overview:

This product is a sterile prescription pharmaceutical. It is to be administered only at the order of a licensed physician. This product is safe when used for its intended purpose and administered as directed by a physician. In addition, no adverse health effects are anticipated as a result of incidental contact or exposure to this product by those handling it or administering it in a therapeutic setting. More detailed information is available in the product package insert. Please report adverse events in patients using this product to the manufacturer at the telephone number listed above.

Eye

May cause eye irritation due to the pH level.

Skin Contact

May cause skin irritation in sensitive individuals due to the pH level.

Skin Absorption

This product is designed to be absorbed from the nasal mucosa. It is not expected to be absorbed appreciably through the intact skin.

Ingestion

Not intended for oral use. Relatively non-toxic if ingested.

Chronic Effects/Carcinogenicity

None known or anticipated under normal handling and exposure conditions.

4. FIRST AID MEASURES

- Eyes**
Flush with water for 15-20 minutes. If irritation develops, seek medical attention.
- Skin**
Wash with soap and water. If irritation or other symptoms develop, seek medical attention.
- Ingestion**
Rinse from mouth and seek medical guidance. Induce vomiting only as directed by medical personnel. Never give anything by mouth to an unconscious person.
- Inhalation**
If inhaled, remove to fresh air. Seek medical attention if symptoms develop or if breathing is difficult.

5. FIRE FIGHTING MEASURES**FLAMMABILITY**

Flash Point:	NA
Flammable Limits in Air-Lower:	NA
Flammable Limits in Air-Upper:	NA
Auto-Ignition Temperature:	NA

General Hazards

Product is not flammable. The only potential fire hazard would involve packaging material.

Fire Fighting Extinguishing Media

Packaging material fires may be extinguished with water, carbon dioxide, or dry chemical.

Fire Fighting Instructions

Fire fighting personnel should respond with appropriate protective clothing, firefighting gear, and breathing equipment as trained. All other personnel should exit the area and proceed to a gathering point in an area unaffected by the fire and smoke.

Hazardous Combustion Products

Packaging material fire may produce carbon monoxide and other gaseous asphyxiants plus airborne particulate matter.

6. ACCIDENTAL RELEASE MEASURES**Large Spill**

Absorb spills with material suitable for aqueous solutions and dispose in solid waste container, or mop spilled material with detergent/water or bleach/water solution and dispose in sanitary sewer. Ventilate area, if desired.

Small Spill

Clean area of spill with wetted toweling and dispose in solid waste container, or follow procedure for large spills.

7. HANDLING AND STORAGE**Special Handling**

Prevent physical damage to package to avoid breakage and spilling.

Special Storage

Store in accordance with the conditions specified in the product package insert.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION**Eye Protection**

None required for protection against the product. Eye protection may be required by procedure of administration.

Skin Protection

None required for protection against the product. Medical-grade examination or surgical gloves may be required by procedure of administration.

Respiratory Protection

None required.

Engineering Controls

Not applicable

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical Form:	Clear aqueous solution
Color	None
Odor:	Unspecified
Boiling Point:	Unspecified
Melting Point:	Unspecified
Freezing Point:	Unspecified
pH:	≈4
Solubility in Water:	Complete
Specific Gravity:	Unspecified
Decomposition Temperature:	Unspecified
Odor Threshold:	Unspecified
Evaporation Rate:	Unspecified
Vapor Pressure:	Unspecified
Vapor Density:	Unspecified

10. STABILITY AND REACTIVITY**Stability**

Stable for period indicated on the label when stored at conditions specified in product package insert.

Incompatibility

No known incompatibilities.

Hazardous Decomposition Products

No known hazardous decomposition products.

Hazardous Polymerization

Hazardous polymerization will not occur.

General Information

No additional information.

11. TOXICOLOGICAL INFORMATION**Toxicology Text**

This is a sterile, aqueous solution containing the synthetic analogue of the human hormone arginine vasopressin, a preservative, and osmotic and pH adjustment agents. It is not expected to be toxic if accidentally ingested in small quantities. This product is to be administered as a nasal spray. This product may be irritating if sprayed in the eyes, or on the skin of sensitive individuals, due to its pH. Any irritation or other physiological changes associated with the medical administration of this product should be discussed with the treating physician. More comprehensive and detailed product information is contained in the product package insert or may be found in the Physicians' Desk Reference.

12. ECOLOGICAL INFORMATION

No ecological damage or persistence in the environment expected under normal conditions of use or with proper disposal. Environmental fate and transport of this product have not been studied.

13. DISPOSAL CONSIDERATIONS**Disposal Information**

Not classified as hazardous waste. Observe all federal, state, and local regulations.

Waste Disposal Methods

Waste must be disposed in accordance with federal, state and local environmental regulations. Uncontaminated product may be disposed by flushing down the sanitary sewer, or by mixing with a liquid sorbent and then placing mixture in the solid waste container for disposal. Incineration is the preferred method of disposal for any contaminated product.

14. TRANSPORT INFORMATION

Proper Shipping Name: Not Regulated

Hazard Class: Not Required

Transportation of Hazardous Material Description

Domestic DOT Label: None; International (IMO) label: Drugs/Medicines. Ship according to DOT and/or IATA regulations.

15. REGULATORY INFORMATION**TSCA**

This material is a biological product regulated by the United States Food and Drug Administration (FDA).
